CAREER OBJECTIVE

Computer Science and Engineering student with practical experience in Full Stack Web Development using React.js, Django, Python, JavaScript, HTML, CSS, and SQL. Passionate about building scalable web applications, writing clean code, and solving real-world problems. Seeking a Software Developer role where I can contribute my technical skills while learning and growing in a dynamic team.

EDUCATION

Arunachala College of Engineering for Women **2023 – 2027**
Bachelor of Engineering in Computer Science and Engineering
CGPA: 8.2 / 10

Sri Vigneshwara Matriculation Higher Secondary School **2022 – 2023**
Higher Secondary Education (HSC)
Percentage: 82.5%

Sri Vigneshwara Matriculation Higher Secondary School **2020 – 2021**
Secondary Education (SSLC)
Eligibility: Pass

INTERNSHIPS

Future Interns – Full Stack Web Development Intern **Feb 2026 – Mar 2026**

- Developed full-stack web applications using HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB.
- Built responsive projects, implemented CRUD operations, and collaborated on real-world development tasks.

Pantech E-Learning – Python Full Stack Intern **Jun 2025 – Jul 2025**

- Developed responsive web pages using HTML, CSS, JavaScript, Bootstrap, and React.js.
- Gained hands-on experience with Python, Django basics, database connectivity, and CRUD operations.

AK Infopark – UI/UX Design Intern **Feb 2025**

- Designed wireframes and interactive prototypes using Figma for mobile application interfaces.
- Applied UI/UX principles to create user-friendly, accessible, and responsive designs.

PROJECTS

BookNova – Full Stack Online Book Store Project Link

- Developed a full-stack online bookstore using React.js and Django with REST API integration.
- Implemented book browsing, category filtering, PDF reader, download functionality, and **Razorpay Payment Gateway** integration with a responsive UI.

CampusVibe – College Event Management System Live Demo

- Developed a college event management website using HTML, CSS, JavaScript, Python Flask, and MongoDB Atlas, deployed on Render.
- Implemented student signup & login, event exploration, and online event registration with database integration.

GLOVIA – Full Stack Skincare E-Commerce Website Live Demo

- Developed a full-stack skincare e-commerce application using React.js (Vite), Django, Django REST Framework with Token Authentication, and PostgreSQL.
- Implemented user registration & login, product listing and details, shopping cart with quantity management, wishlist, user profile, and orders using Context API and REST APIs (PostgreSQL database).

StyleHub – Frontend Fashion E-Commerce Website Project Link

- Developed a responsive fashion e-commerce website using HTML, CSS, Bootstrap, and JavaScript.
- Implemented product search, shopping cart, checkout flow, and LocalStorage-based order management.

Student Management System (MERN Stack) Project Link

- Developed a MERN-based student management system with complete CRUD functionality.
- Built responsive interfaces and integrated MongoDB for efficient data management.

Mini CRM – Full Stack Lead Management System Project Link

- Built a full-stack CRM application for managing customer leads and interactions.
- Implemented CRUD operations, search functionality, and a user-friendly dashboard.

Personal Portfolio Website Live Demo

- Developed a responsive portfolio website showcasing projects, skills, resume, and contact information.
- Designed using HTML, CSS, Bootstrap, and JavaScript with a modern user interface.

MediAlert – UI/UX Case Study Project Link

- Designed a medicine reminder mobile application using Figma.
- Created user flows, wireframes, and interactive prototypes following UI/UX best practices.

SKILLS

- **Programming Languages:** Python, JavaScript
- **Frontend Development:** HTML5, CSS3, Bootstrap, React.js, Vite
- **Backend Development:** Django , Django REST Framework, Flask, Node.js, Express.js
- **Database:** MySQL, PostgreSQL, MongoDB, SQLite
- **UI/UX Tools:** Figma
- **Tools:** Git, GitHub, Visual Studio Code, Vercel, Render

CERTIFICATIONS

- Introduction to Agile Methodology – Infosys Springboard
- Continuous Integration and Delivery – DevOps – Infosys Springboard
- Cloud Computing – NPTEL
- Python Full Stack Development – IT Desk
- Basic Django – Infosys Springboard
- UI and UX Designing with Color Theory – Infosys Springboard
- Modern Full Stack Development – Skill Sync Pvt. Ltd.
- Frontend Technologies – IBM

PUBLICATIONS

Using AI to Recommend Books: A Review of Current Methods Paper Link

- Published a review article in the International Research Journal of Engineering and Technology (IRJET), Volume 13, Issue 09, September 2026 (Serial No. 38).
- Explored AI-based methods used in book recommendation systems and how they help readers discover books based on their interests.

ACHIEVEMENTS

- Received a **Letter of Recommendation** from Future Interns for outstanding performance during the Full Stack Web Development Internship.
- Won several prizes at the National Level Technical Symposium SYNERVA'26, including Code Relay, Paper Presentation, and Web Development & Chatbot Creation.

Date: 23 October 2026 **Signature:** Pooja R
